

## WATER PAYMENT / LIEN AGREEMENT

By signing this agreement, the buyer agrees to pay all water charges or membership fees as billed to him by the Association. On any unpaid balance, the Association shall have the option of billing a lien against the member's property. And the Association shall be able to enforce their rights of collection of said lien, including the right to receive costs and reasonable attorney fees.

As a condition precedent to any of the remedies referred to above, the Association shall give the delinquent member 60 days written notice of their intent to exercise their remedy under this agreement. If the member fails to correct the default within the 60-day period, the Association may pursue either of the remedies referred to above.
